NOTE

The Association maintains public liability insurance.

“Globalisation is occurring at a faster pace today than at any time in history.

Leaders of education reform across Australia view our integration with Asia as a natural and inevitable part of our nation’s development.

Young Australians must adapt rapidly to this change, to support harmonious evolution in our society, and to maintain their access to career and business opportunities.”

James Davis

Chief Executive Officer

Asia Literacy Teachers Association of Australia Inc.

& PROGRAMS

ASIA PERSPECTIVES: AUSTRALIA'S CROSS CURRICULUM PRIORITY

Asia literacy is about the promotion of inter-cultural understandings of Asia through the integration of Asian perspectives in all curriculum areas.

Our programs are relevant to teachers of History, Geography, Business, English, Mathematics, Home Economics, Physical Education, Biology, Economics & Computer Studies, Design & Technology, Tourism & Hospitality, Visual Arts, Music, Drama, Dance, Media, Science, SOSE, Environment & Sustainability, ICT, Asian Languages, and across all levels of primary and secondary schools.

TEACHER PROFESSIONAL DEVELOPMENT

You can now access specialised professional development that delivers the knowledge, skills and confidence to embed Asia perspectives into your classroom practice.

Our programs can be tailored to suit your curriculum interests with regular in-country learning opportunities in China, Vietnam, Indonesia, Malaysia, Korea and Japan. Programs are delivered across national school holidays and are priced to fit your budget.

Teachers can also access Asia workshops conducted by one of our Asia Consultants, delivered in schools and universities across Australia.

TEACH IN ASIA

For a true immersion in Asia, we can now offer teachers opportunities to experience schools in Asia on short-term teaching placements.

STUDENT PROGRAMS

We support classroom teachers with tailored student programs across all curriculum areas. Based on your teaching priorities, we can develop and manage the entire program including detailed planning and logistics. Our student programs currently operate in China, Vietnam and Malaysia with more locations available upon request.

SCHOLARSHIPS

The Asia Literacy Scholarship Fund is our latest initiative, which aims to deliver scholarships and prizes to Australian schools and students across the primary, secondary and tertiary education sectors. Donations are accepted from the public, with donations over \$2 being tax deductible for Australian tax residents.

COLLABORATION & PARTNERSHIPS

Asia literacy in Australian schools involves collaboration and partnerships across all curriculum areas. We welcome opportunities to work with all teacher associations across Australia.

If you represent a teacher's association and would like to extend innovative benefits and opportunities to your members, please contact us today.

MEMBERSHIP

Be part of Australia's most innovative teachers association. Enjoy a wide range of benefits including affordable and interesting professional learning or access to student programs that support classroom teaching.
